

EDUCATION

Johns Hopkins University 2019
B.S. Computer Science

GPA: 3.61/4.00 Dean's List

ADDRESS

Home:
512 Summit St
Englewood Cliffs, NJ
07632

School:
3301 N. Charles St
Charles Commons #5086
Baltimore, MD 21218

COURSEWORK

550.171 Discrete Mathematics
550.211 Probability and Statistics
110.202 Calculus III
600.107 Introductory Programming in Java
600.120 Intermediate Programming (C/C++)
600.226 Data Structures (Java)
600.271 Automata & Computation Theory

SKILLS & TOOLS

Python	Django	Git	Linux
Java	C/C++	JUnit	AWS
HTML5	CSS3	JS	
Photoshop	Illustrator	Tableau	

EXPERIENCE

Technical Intern, GeoSure Global LLC, New York, NY June 2016 - Present

- Paid summer internship and current part-time work
- Automated a data gathering procedure by using **Python**, **Amazon EC2** instances, and scheduled tasks
- Wrote a **Python** package to cluster Twitter stream data into geopolitical activity centers
- Labelled 10,000 highly concentrated activity points into neighborhoods by geocoding
- Wrote unit tests to ensure robust code
- Assisted the CEO with administrative tasks and technical application writing

Student Employee, JHU Alumni Association, Baltimore, MD Sep 2016 - Present

- Campus job at Johns Hopkins University Alumni Association
- Write technical scripts in **Python** and **Javascript** to optimize man hours needed for manual tasks
- Coordinate administrative office work and fundraising in preparation of annual Alumni Reunion event

Hackathon Organizer, HopHacks, Baltimore, MD June 2016 - Present

- Regularly updating hackathon registration system written in **MeteorJS**, **HTML**, and **CSS**
- Initialized rebranding by creating a new sponsor prospectus and reward tiers
- Acting as judge and sponsor liaison by being primary point-of-contact for 36 hour event

PROJECTS

City Partitioning Tool, GeoSure Global, New York, NY Aug 2016

- Wrote and deployed a **Python** Django app that divided city bounds into neighborhoods
- Designed website with **HTML5** components and **CSS3** transitions
- Automated a 4-person manual partitioning project that resulted in improved productivity
- Gained experience with application deployment and good web development practices

Final Project, Intermediate Programming, Baltimore, MD May 2016

- Recreated board games Checkers and Battleship in **C++** using STL and standard OOP
- Heavy use of git version control to minimize code collisions and ensure up-to-date code
- Utilized gdb and valgrind to debug memory allocation and pointers
- Implemented and ran unit testing
- Gained experience in agile development over the course of 3 weeks

Path Hero, HopHacks Spring 2016, Baltimore, MD Feb 2016

- Led feature development of an **Android** app that planned the fastest walking route through classrooms
- Parsed JSON data from JHU Courses API and Google Maps API
- Continued app development with 2 team members in **Python Django** after hackathon event

Sprout, HopHacks Fall 2015 - **Bloomberg Sponsor Winner**, Baltimore, MD Sept 2015

- Worked with a team to create an iOS app that optimized health clinic locations based on distance, population, and growth of cities
- Created a database of villages in Sierra Leone and India by Python web scraping
- Co-wrote optimal distance algorithm between villages, which contributed to a scoring algorithm that encompassed all variables
- Designed logo and icon with Adobe Illustrator

LEADERSHIP

Co-founder and Technology Officer, TCO Labs, Inc. Baltimore, MD Oct 2015 - Present

- Co-founded an entrepreneurial non-profit resource at Johns Hopkins University
- Planning a tech conference for Spring 2017 to connect students, startups, and entrepreneurs
- Regularly update website using **HTML**, **CSS**, **JS**

Founder, Mantis Customs LLC, Englewood Cliffs, NJ July 2013 - Present

- Founded a custom phone case merchandising business
- Managed a team, designed custom products for smart phones, negotiated with vendors, and promoted products to organizations
- Distributed custom retail products to local and international clients.
